PROFESSIONAL SUMMARY

Backend Developer with 2+ years of hands-on experience designing and shipping scalable REST APIs and server-side systems using Laravel, Node.js, and MongoDB. Production experience across healthcare (MedicaSpace) and commercial platforms, with strong command of clean architecture, Design Patterns, and database optimization. Passionate about writing maintainable, well-structured code and translating business requirements into reliable technical solutions.

EXPERIENCE

Laravel Backend Developer · MedicaSpace Dec 2024 – Present

- Built and maintained RESTful APIs for a multi-sector medical networking platform serving C2C, B2B, and B2C use cases.

Coding Instructor · Black Horse Courses Mar 2025 – May 2025

- Taught Python, OOP, data structures, and ML to diverse learners, improving student confidence and course completion rates.

Coding Instructor · iSchool — I2S Sep 2025 – Oct 2025

- Delivered coding curriculum to students aged 6–18, strengthening instructional skills and technical communication.

PROJECTS

Node.js · Express · MongoDB · E-Commerce Backend Aug – Sep 2024

- Designed a modular REST API with authentication, product management, and order workflows following OOP and MVC principles. Implemented JWT-based auth, input validation, and error-handling middleware for production-ready reliability.

Node.js · Express · MongoDB · Freelance Backend System Sep – Dec 2024

- Built a high-performance backend with RESTful APIs, scalable data models, and clean architecture for a commercial client. Delivered secure authentication, product CRUD, and deployment-ready configuration within a 3-month timeline.
